Dear Bob, Board Members & Superintendents:

Enclosed is an unofficial copy of my evaluation report for the 1993 Lincoln County Fair. I certainly enjoyed my day at your fair and all of you can feel very good for a job very well done. Congratulations on a great fair.

I think that all of my observations and recommendations are on the report, however I would like to expand on my concern about the lack of FFA and Ag teacher participation. With six high schools in the county with FFA chapters I was very disappointed to only see two teachers - one new and the other a substitute. The county fair should be the show case for Vo-Agric. departments and FFA chapters. If parents and community members can see outstanding FFA exhibits it should encourage enrollment. I suggest that you invite the teachers to a fair board meeting to discuss how to enhance FFA participation, or even some of you go to a teachers meeting.

Lack of entries, or less than 10 entries hurt the score in many areas - I realize that harvest is very late, but it is something for the Board to address for future years. Hopefully you will be able to correct the floor problem in the Floral building soon. A simple way to let people know that there are other exhibits in the commercial building would be to add a sign on the building that states "Lapidary, Scouts, etc." Some people skip commercial exhibits, but are interested in some of the other exhibits in the building.

I would not use both stick-on and large ribbons but one or the other. I suggest stick-on ribbons for small items, then the exhibitor can trade these in on Sunday evening for the large ribbon if he/she chooses to do so.

If you have any questions please feel free to call. Again, congratulations on a very successful fair.

Sincerely,

Gene Forrester

Dear Bob:

Enclosed are the corrected pages for the evaluation report for the 1993 Lincoln County Fair. I am sorry that I did not pick up on the fact that the cattle in the yards were also being exhibited and no one indicated to me that they were there or that there were additional Open horses present on Friday. I appreciate you sending copies of the clerk sheets so that my evaluation accurately reflects what you actually had.

The other day I was told of a product that can be floated over a floor such as in your Floral building that is supposed to fill cracks and level the floor. You might inquire at a local (or in Spokane) building supply store to see if it is practical and cost effective. I understood that it is being commonly used in remodels. I think they called it "Float". Hope it is available, practical and economical.

Sincerely,

Gene Forrester
